

PERSONAL FLOTATION DEVICE DONNING INSTRUCTIONS

BASIC FERRYBOAT PFD

Model 160RT - Adult Size, USCG Approval 160.055/196/0
Model 161RT - Child Size, USCG Approval 160.055/197/0

USCG Approved
Type I - Permanent
Foam Flotation

This Imperial personal flotation device is filled with a soft flexible permanent flotation foam.

When worn properly it can save your life. Above all, be sure to remain calm and follow the simple steps listed below.

Body strap with snap and d-rings

Spread front panels enough to allow head to slide comfortably into preserver.

Pull body strap around back and snap on d-ring at front. Pull tight.

If necessary to jump overboard, hold life preserver securely at upper front chest opening until in water.

OUR MISSION IS YOUR SURVIVAL.
