

Sailor 3965 UHF Fire Fighter Radio

SAILOR 3965 UHF FIRE FIGHTER RADIO

Communication is vital for the safety and efficiency on board all vessels. When it comes to one of the most extreme and dangerous situation crews can face – the outbreak of a fire – the need for efficient communication for the coordination of fire fighting is even more vital.

Features

- Robust design
- Waterproof (IP67)
- Large display
- Clear sound
- Large tactile buttons
- Ribbed grip
- Interface to external accessories

CHANNELS AND FREQUENCIES

Dimensions	20.9 cm x 6.6 cm x 5.5 cm
Weight	350 g
Operating Temperature	-20 °C to +55 °C
IP Rating	IP67
External Antenna	No
Input Voltage	7.2V DC
Battery Type	Lithium-ion (Rechargeable)

2018

On November 30th, 2012 the Maritime Safety Committee adopted Resolution MSC.338(91) among which, Chapter II-2 “Construction – Fire Protection, Fire Detection and Fire Extinction“ mentions specifically the use of suitable radio equipment.

SOLAS Chapter II-2, regulation 10.10.4

For ships constructed on or after 1st July 2014, a minimum of two two-way portable radiotelephone apparatus for each fireparty for fire-fighter’s communication shall be carried on board. Those two two-way radiotelephone apparatus shall be of an explosion-proof type or intrinsically safe. Ships constructed before 1st July 2014 shall comply with the requirements of this paragraph not later than the first survey after 1st July 2018.

Reliability for critical operations

The SAILOR 3965 UHF Fire Fighter radio has been developed specifically for the fulfilment of the SOLAS requirement. Built on the legacy of SAILOR SP3500 series portable radios, the SAILOR 3965 UHF Fire Fighter radio provides reliable, feature rich communication that helps to make the fire party safe and effective when called into action.

Taking safety to higher standards

The robust and explosion proof SAILOR 3965 UHF Fire Fighter radio fulfils the IEC 60945 marine standards to ensure the highest quality for on board safety communication equipment. The special red colour of the radio ensures that the dedicated purpose and use of the radio is not violated. As a special safety option the SAILOR 3965 UHF Fire Fighter radio can be supplied with a non-rechargeable emergency battery providing the highest possible safety when deploying the fire party instantly.

Designed for purpose

The SAILOR 3965 UHF Fire Fighter radio is a true SAILOR product. It includes features specifically made for fire fighters such as a logical and easy to operate keypad, instant readout of status on the crystal clear display and audio feedback of channel selection in headsets. The SAILOR 3965 UHF Fire Fighter radio is a cost effective solution that integrates with both SAILOR accessories as well as high quality third party accessories. This flexibility ensures that the SAILOR 3965 UHF Fire Fighter radio fulfils the need of most configurations of the fire fighter outfits required under SOLAS.

Basic Package Contents

- 1 x SAILOR 3965 ATEX UHF Portable Marine Radio, IP67
- 1 x SAILOR 3965 ATEX UHF Antenna
- 1 x SAILOR B3506 ATEX 1.800 mAh Rechargeable Li-Ion Battery, IP67
- 1 x SAILOR CH3505 Compact Single Unit Charger
- 1 x SAILOR AC/DC Converter including cable
- 1 x SAILOR ATEX Lanyard
- 1 x SAILOR ATEX Belt Clip
- 1 x SAILOR Operators Manual
