WHY CHOOSE YAK

EXPERT DESIGN

Yak's expert designers work closely with a wide range of organisations and individuals including flood rescue teams, ocean rowers and whitewater hunters. With their unique insight we are able, step by step, to refine every aspect of our product design and construction. We feed these innovations directly into each of our products whether for whitewater, touring or recreational use. So, no matter what floats your boat - your safety is never compromised.

MATERIALS AND FABRIC

We choose the best and most appropriate materials for each product, ensuring the ultimate in comfort and longevity for the individual environment. We then combine our in-depth know-how with the latest technology to construct quality products which offer you the best possible performance.

APOLLO DXIOK

PROVIDING CRITICAL SAFETY SOLUTIONS

Survitec is recognised as the most comprehensive global total solutions provider for mission critical safety and survival equipment. With a history dating back over 160 years, Survitec commands market-leading positions worldwide in marine, offshore, defence & aviation survival technology.

As innovators with a passion for developing new products and services to meet the changing demands of our customers, we pride ourselves on delivering great service.

Although our business interests span many countries and markets, our people share a common mission... your safety.

As part of Survitec, the Yak team are experts at discretely combining safety with practicality and style.

 **survitec**

WHY CHOOSE YAK

PERSONAL FLOTATION DEVICES (PFDs)

When developing our PFD range our specialist design team were tasked with drawing on their huge amount of technical knowledge to produce a range of products that fitted the specific needs of each intended user.

The team have studied all the movements you do, the shapes and sizes you are and the features you want and need.

The result is a coherent collection that caters for everyone, from the first-time paddler, through to the whitewater guru, without being confusing and overly complicated. Add to that some killer price points that offer excellent value, what's not to like.

RANGE FEATURES

4D CAST TECHNOLOGY

Extensive research and development sees the integration of 4D Cast foam technology, providing full freedom of movement for performance paddling. We have precision distributed the buoyancy to provide a sleek, slim-line high performance product.

TAURUS 70N

Given the Yak design team's background in making PFDs for the harshest environments on the planet, and highly demanding users, why not produce a whitewater PFD that incorporates the lessons learned during those technical projects and offers their benefits for the best possible product at the best possible price. Enter the new Yak Taurus PFD!

The Taurus takes comfort and freedom in a whitewater PFD to a whole new level. Its 3D shaped front panels literally wrap around the body like a warm caress, and the minimalist back panel... well, you won't even know it's there! Plus, the Taurus has an integrated attachment point to facilitate the use of the Yak quick release belt – a useful tool, should you need to conduct a bankside rescue.

FEATURES

- ✓ 4D Cast technology combined with Supersoft foam to offer supreme wearer comfort
- ✓ Heavy duty outer cover material to improve wear characteristics and product longevity
- ✓ Optional quick release harness belt, which can be worn right or left handed
- ✓ Enclosed rear panel to give cleanest harness attachment point
- ✓ Versatile front pocket, which is big enough to take the essentials
- ✓ Separate knife pocket to speed deployment
- ✓ External mounting points with lash tab spacing to easily accept accessories
- ✓ Stretch mesh side and inner panels improve drainage
- ✓ Internal waist adjustment reduces overall product height
- ✓ Padded shoulder adjustment to allow a wide size range adjustment
- ✓ Shoulder grip panels to aid boat carrying

SIZES: S/M, M/L, XL

ADJUST TO FIT

Yak multi-point adjustments let you quickly tailor your jacket snugly to your body shape. The failsafe, adjustable shoulder straps give the right fit whether you're a long, lean string bean or a shorter, rounder baked bean.

POCKETS

When you're heading out into the wild, never underestimate the value of good communications between yourself and your party, and with the wider outside world. This large pocket provides easy access storage for communication devices.

ATTACH IT HERE

Not that you want to go off for long adventure days afloat weighed down like a pack horse, but some accessories are essential. We know that, we've been there. So we've added plenty of strong attachment points including a quick release split D-ring to which you can secure as many or as few accessories as you wish. Giddy up now.

SAFETY FIRST

Approved to ISO Standards, all Yak buoyancy aids tick the box for fundamental safety and quality issues. But naturally, as a Yak, there's a whole lot more on offer too.

IN SAFE STORAGE

You never know when you might need a knife when afloat, not to mention the other bits and pieces essential to your individual needs. All except our most basic jackets offer additional safety storage options, such as this quick access expanding knife pocket with lanyard attachment.

SAFETY MANAGED, ADVENTURE UNLEASHED

Your safety is of paramount importance to us. So we have included the option to integrate a quick release belt into our Taurus whitewater PFD. With it in place you can remain confident of tackling whatever the water throws at you.

SNUG AS...

You should be as snug as a bug in your PFD. A snug jacket is more comfortable and prevents the double trouble of chafing and constricted movement common with poorer fitting garments.

XIPE 60N

River calm or choppy sea, the Xipe 60N is the perfect fit for touring without tiring. Its high cut slimline design, adjustable shoulders and concealed waist belt together ensure a great fit with excellent arm mobility. With a built-in hydration pack pocket and abundant front pockets, it's a comfortable, practical solution for every day paddling.

FEATURES

- ✓ 3D ergonomic supersoft foam panels to offer greater wearer comfort
- ✓ Versatile front pocket for accessory stowage
- ✓ Hydration pack pocket with hands free hose channels
- ✓ Adjustable shoulders and twin waist adjustment for a close fit
- ✓ Reflective piping for visibility

HIGH BACK 60N

The ultimate PFD for your next touring adventure, river calm or choppy sea, the High Back 60N provides the most advanced solutions in comfort technology design. It's raised back profile buoyancy placement means that no matter what type of boat you are in, you can be assured of its comfort properties.

In addition, the High Back 60N provides breathable air mesh air flow technology helping you stay cool on even the warmest of days and a sculpted foam design helping to ensure the PFD moulds to the shape of your body to help ensure you are as fresh and comfortable when you arrive as when you set out.

FEATURES

- ✓ 4D Cast technology to offer supreme wearer comfort
- ✓ Superlight foam
- ✓ Ergonomic high back profile for harmonised comfort between paddler and the boat seat
- ✓ Versatile front pockets for accessory stowage
- ✓ Breathable air mesh technology for temperature regulation
- ✓ Adjustable shoulders and twin waist for a close fit
- ✓ Available in 2 versatile sizes to accommodate a wide range of sizes
- ✓ Reflective piping for visibility

KALLISTA 50N

The humble recreational PFD is often overlooked in the race to produce the newest/latest/greatest/most extreme product. However, it is at the recreational level that most people experience Paddlesports for the first time. So why not make the experience a better one, ensure comfort and security without breaking the bank.

Yak has completely redesigned the classic Kallista PFD. We have called upon our dedicated in-house design team and tasked them to use their huge expertise in the PFD market to improve on an already excellent product. Each element was reviewed in turn, improved where possible, and then the parts combined, and reviewed and improved again! The result of this process is the most comfortable and secure PFD Yak has ever made at this level.

FEATURES

- ✓ Robust outer cover material to improve wear characteristics and product longevity
- ✓ Redesigned thinner, more flexible foam panels to offer greater wearer comfort
- ✓ Optimised foam construction to give best balance of comfort and light weight
- ✓ Fuss free front zip donning makes life simple and eliminates user confusion
- ✓ Buckle free front panel which removes the most common potential snag point
- ✓ Dual side adjustment to give the best possible fit and security in the water
- ✓ Padded shoulder adjustment to allow a wide size range adjustment
- ✓ Versatile front pocket, which is big enough to take the essentials (it's all about the gram!!)
- ✓ Secure in-seam key pocket, cunningly sitting between the foam to improve comfort
- ✓ Reflective highlights to improve low light visibility

CREWSAVER SWIFT WATER RESCUE 80N

Designed by Yak's sister company, Crewsaver, the Swift Water Rescue (SWR) is a top-of-the-range multi-purpose emergency response 80N PFD. Its one-size-fits-all design featuring intuitive waist adjusters, strategically positioned retrieval handles and a quick release belt makes this PFD an easy and economic choice for rescue teams.

Designed with key features to enable carriage of all the accessories you need to ensure you have the best gear possible to do the job you need to do and that all of your equipment is easily stored and accessible.

FEATURES

- ✓ Quick release belt accommodates use of cowtail and safety line
- ✓ Velcro tidies and split D-rings to minimise snag risk when storing optional cowtail attachment
- ✓ Side flaps for impact protection which can also be folded to stop build up of heat
- ✓ Reflective print to aid visibility
- ✓ Strategically positioned handles to enable a swift retrieval
- ✓ VHF radio pocket with side zip entry for easy use
- ✓ ID flag to allow own branding
- ✓ Custom one-size-fits-all fit to enable swift donning
- ✓ Dual adjustable crotch straps

HORIZON DRYSUIT

The Horizon drysuit is tailored using 3-layer breathable material technology, with enhanced waterproof properties. This, combined with the twin neck seal system, latex wrists and low-profile fabric socks, keeps the wearer warm and dry – no matter what the activity.

FEATURES

- ✓ Hard wearing 3-layer breathable material
- ✓ Ykk aquaseal plastic cross shoulder & relief dry zips with protective cover
- ✓ Cordura reinforced double layer seat & knee areas
- ✓ Lower back stretch panel for additional flexibility
- ✓ Articulated arm & leg design
- ✓ Twin latex & glideskin neoprene neck seals
- ✓ Twin adjustment single lined neoprene waistband
- ✓ Easy seal replacement
- ✓ Ankle and wrist adjusters
- ✓ Removable adjustable braces
- ✓ Reflective highlights
- ✓ 2 Year manufacturer's warranty
