

MAROPS MARIN COVERT OPERATIONS LIFEJACKET

Designed for maritime interdiction operations

When the need arises to delay, disrupt or intercept other forces, you need a lifejacket that is designed to improve your operational effectiveness. The low-profile design ensures that the lifejacket is shaped around the body, enabling correct weapon positioning.

BENEFITS:

- ✓ Integrates into body armour or worn as a stand-alone lifejacket
- ✓ Achieves ISO 12402-2 in water performance with 290N of buoyancy
- ✓ Easily switches between auto and manual inflation methods
- ✓ Best in class Ergo 3D bladder inside
- ✓ Designed and tested in partnership with military customers
- ✓ Designed to work with magazines and other chest fitted equipment
- ✓ Independently verified for helicopter escape, meeting EASA standards

“ Tailored to work in tandem with existing operational equipment, delivering maximum performance ”
