

SEARESCUE TACTICAL DRY SUIT

Ergonomically designed operator suits

Designed in partnership with military and police groups, the super slim carefully tailored suit has been developed to endure demanding operations. Using Hansen Protection's unique construction, the SeaRescue Tactical and light version ensure the best possible freedom of movement.

BENEFITS:

- ✓ 3-ply fire-retardant HP Aramid for breathability and longevity
- ✓ HP Ultra-light FR material version for reduction in heat fatigue
- ✓ Tailored pattern to reduce excess material and improve freedom of movement
- ✓ Unique telescopic trunk allows a more tailored fit between sizes and improves tactical movement
- ✓ Reinforcement patches and unique seamless seat to reduce wear points
- ✓ Expandable thigh pockets
- ✓ Neck and cuffs in neoprene glide skin, adjustable neoprene and latex
- ✓ Waterproof zipper on the back (front zip available) and relief zipper on the front
- ✓ Internal braces and gloves

“ Designed with military and police groups in mind ”
