

The Survitec logo consists of a white stylized 'S' icon followed by the word 'survitec' in a lowercase, sans-serif font.

SLIMFIT FULL COVERAGE ANTI-G TROUSERS

Optimised protection for smaller cockpits

Full coverage Anti-G protection designed for aircraft with smaller cockpits.

The leg tunnel on some aircraft, is narrow and can lead to interaction when the Anti-G trousers inflate, and this new design aims to eliminate this problem.

BENEFITS:

- ✓ Fully integrated Anti-G solution designed to maximise protection and pilot performance
- ✓ Improved integration with narrow cockpit aircraft such as F-16 and Hawk
- ✓ Ergonomic design optimises pilot comfort and mobility at all times
- ✓ Environmentally resistant materials, including full flame-retardancy
- ✓ Available in 14 standard sizes plus special measure option
- ✓ Pressure bladder constructed from Moisture Vapour Permeable fabric to ensure improved comfort
- ✓ Designed and manufactured in UK MOD approved facility

“ **Protecting pilots - your most valuable asset** ”
